Signs of Spring

Our professional wildlife photographer Julie-KC2ZTG, set up her camera in her vast back yard to bring us a few beautiful shots. Above: addertongue (aka trout lily) Below: a drake Mallard taking off from the far pond.

More great cabinetry by Chad-KB1HPV

Our resident carpenter, Chad, has been very busy. Since moving into his new Virginia QTH, he has gotten his wood working shop up and running, with all sorts of fantastic wood working tools and machines. A few issues ago he made a

chest to be given away at our annual end-of-summer party in the Thousand Islands. Today he is showing off his latest chest.

Chad usually makes his projects out of scrap discarded wood. Each piece is trimmed and finished with either a paint or natural

wood coating. This new chest is ready to hold whatever the recipient will put in there.

Chad also gets busy building kitchen and bathroom cabinets from scratch. The next time you hear Chad-KB1HPV on the air, wave a hand and he'd be more than happy to answer your woodworking questions.

Green Acres

is the place to be...

John-W8LWX is showing off his "new" acquisition in a photo taken by XYL Janice- KJ4UYR.

"This is our 'new' 1986 Ford 1710 tractor, which uses a 1.3 liter, 26HP, 3-cylinder Japanese diesel engine. The shiny new red thing behind it is a brand-new Bush Hog (Model BH114, 4-foot cut). Soon enough Janice will

be trained in the operation and have some farming fun too. People keep calling me 'Oliver' now, for some reason. Oh, and also 'Dahling.'

"Dahling I love you but give me Park Avenue."

A note from your editor ...

Our monthly newsletter "THE CHEW", contains information about the activities and participants in the 7.272 Ragchew Net. We rely on contributions of stories and pictures from the members to keep all of us up to date, impart information we can all use and, of course, to raise a smile and a chuckle or two. If you find a new "Taz" photo that can be used for future certificates and QSLs, that too is greatly appreciated. Without you, there is no Chew!

Please, e-mail your stories, tech info and photos to Loby at wa2axz@arrl.net

Many Thanks!
